Students admitted to the concurrent B.Ed will need to enrol in the following course in the first year:

**ED/EDUC 1000 3.00  Rethinking Schooling: A "Re-Introduction" to Education**

The section you enrol in will depend on whether you were admitted to the French BEd or the English BEd program. Check your Admission Letter if you are unsure.

Step 2

Enrol in your French courses
(A Placement Test is required for FSL and FRAN courses)

Learning Activity #2
Request permission to enrol

Some courses require the department’s permission in order to enrol. In the case of some FSL courses, enrolment is by permission only since the department needs to confirm that the course matches your Placement Test Result.

1. Do an internet search to find the YorkU Course Contact Directory page

2. Locate the Academic Department that offers the course you wish to add and copy the email address
   Note – some subjects are offered by more than one faculty. For Glendon courses, make sure the Faculty indicated is GL.

3. Compose an email that includes the following information
   o Your name
   o Student Number
   o The course code (ex. FSL 1210)
   o The specific section of the course you would like to add (ex. Section M, Section N)

4. Wait to be notified that permission to enrol has been granted. You will still need to enrol in the course on REM using your Passport York account.

Step 4
Enrol in elective courses (if space permits)

Learning Activity #4
Check for scheduling conflicts

Start at the Glendon website - https://www.yorku.ca/glendon/

- Navigate to the Current Students page (Students menu)
- Navigate to the Academic Services website (Academic Advising)
  - Scroll to the bottom of the page or hold CTRL+F to locate the “Access the York Courses Website” link.
- Select Plot My Timetable from the menu (see My Class Schedule).
- Select Fall/Winter 2023-2024 as the academic session.
- Scroll below the Fall term schedule to see your Winter term schedule.
  - You can click on a Course Code to view the Course Description
  - You can click on a Building Abbreviation to find an interactive campus map.
  - Full year courses (Y Term) will appear on both the Fall and Winter schedules

Course conflicts appear in red with information about the conflicting courses.
If you have space in your schedule after adding all possible mandatory credits from Steps 1 to 3, you can now select elective credits to complete your schedule.

**What are elective courses?**

“Elective credits” are unspecified credits that are still important as they count towards your total 90 or 120 credits needed to graduate, but they do not satisfy any specific requirements within those credits, such as the major or general education.

---

**Guidelines for selecting elective credits**

You can select courses in any subject as long as there are no prerequisites that you need to fulfill.

1. **Select courses that are appropriate for your year level.**
   - **1000 and 2000 level courses**
     *Open to students who have received between 0 and 81 Transfer Credits.*
   - **3000 level courses**
     *Not open to students who have received fewer than 24 Transfer Credits.*
   - **4000 level courses**
     *Not open to students who have received fewer than 54 Transfer Credits.*

2. **Pursuing a second major or minor?**
   Use some of your elective space to take courses in your second area of study.

3. **Pursuing a single major?**
   Select courses in any discipline. You can also consider using some of your elective space to take additional credits towards the General Education Requirement (Step 4).

---

**Searching for Elective Courses**

- Use the [Advanced Search function](#) on the [York Courses Web Site](#) to search courses at Glendon in different subjects.
- You an refer to this [List of Glendon Courses](#) to help you refine your search.
## Step 5 Final Activity

**Answer these questions to see if you have created an appropriate schedule**

### Are your FSL courses in the correct order?

Only one FSL course per term.

Your first FSL course is the course at your level of placement, taken in Fall. You are taking the next level of FSL in the Winter term.

### Did you select the right number of credits?

No more than 15 credits in each term (100% course load).

Students who need to have full time status are enrolled in at least 9 credits in each term.

Note: Students registered with a permanent disability through the Accessibility and Wellbeing Centre can be considered full-time students when enrolled in 6 credits per term.

### Are your courses appropriate for your year level?

You are only taking courses at your year level, one level above or one level below.

i.e., First year students enrol in 1000 and 2000 level courses only

Note: If you have more than 24 transfer credits, an advisor may suggest that you enrol in 3000 or 4000 level courses.

### Is your schedule well spaced out?

You have viewed your timetable and resolved scheduling conflicts.

Note: Enrolling in two courses back-to-back is not a scheduling conflict if both courses take place at Glendon.

You are not enrolled in more than 6 hours of class in one day if possible.

If taking courses at more than one campus, you have scheduled at least 1.5 hours in between classes to account for travel time.

**CONGRATULATIONS!**

You are now all set for your first year at Glendon.
