CONFERENCE BACKGROUND & TOPIC

Join us at our annual International Humanitarian Law conference as we focus on the challenges that the issue of terrorism presents to the Laws of Armed Conflict. As contemporary conflicts involve increasingly greater numbers of non-state armed groups, understanding international rules that apply to these diverse groups is essential to increasing compliance with international law. This conference will bring together experts in the field, academics, representatives from the Red Cross/Red Crescent Movement, and representatives from the Judge Advocates General's Office, to discuss the challenges, obligations, and the applicability of IHL to terrorist groups and acts of terrorism.
