Some costs are charged on a yearly basis – let's go through these costs first:

Do you have a negative number? This means that you won't have enough resources to cover your costs. You will need to revisit your budget.

Step 3 – Check your results

D – TOTAL RESOURCES	\$53,200	-	C – TOTAL COSTS	\$52,578.10	=	\$621.90
----------------------------	----------	---	------------------------	-------------	---	----------

Now it's your turn!
